return solutions

Key Benefits:

- Items are checked-in and security is activated immediately
- Patrons can instantaneously borrow more items
- It's convenient with access 24 hours a day, 7 days a week
- Improved ergonomic workflow for staff
- Staff time can be reallocated for more meaningful tasks

Automated return and sortation systems allow your staff the freedom and flexibility to spend more time with patrons and carry out more meaningful tasks. Our range of solutions provides options for all library situations. From minimal budget and space constraints to fully involved complex sorting systems, we have a solution that will fit your exact needs. All systems will automatically process returned items and transport them into the correct destination without taking up precious staff time.

We build your library installation around the specifications you give us. With many factors to consider when choosing the right solution for your library, we make sure to guide you through the process with ease and simplicity.

technical specifications

Patron frontend dimensions

Without touchscreen:

h: 590mm / 23.23" | w: 555mm / 21.85" Input level (internal & external) h: 949 mm / 37.36"

With touchscreen*:

h: 687mm / 25.87" w: 535mm / 21.06" Input level (internal & external) h: 950 mm / 37.40"

*Subject to change based on custom configuration

Noise Level: Less than/equal to 55dB per module Humidity range: Between 80 - 85% non condensing Working temperature (internal): +5°C - +40°C / 41°F - 104°F Working temperature (external): -30°C - +55°C / -22°F - 131°F

Between 600 and 2,400 items/hour depending on LMS/ILS response time and return solution configuration

IP54, CE, ADA/DDA compliant

Software:

Reject function – all models Unsecure function – all models smartadmin™ central management software

Hardware:

External weather resistant proofing (rain/bright conditions) Sliding window

Mounting collar

Hold slip printer

Item barcode reader

Mifare Reader for patron identification cards RFID Antenna in frame - for RFID patron cards or Items

Declining conveyors

Lift systems

Large or small size bins

Bin covers

Ergonomic vertical stacking carts

Configuration and reporting is available via our optional smartadmin™ central management software.

smartreturn™ software is delivered pre-installed and pre-configured with all AMH systems. Supports LMS/ILS protocols SIP2 and NCIP and is data model independent

minimum: h: 100mm / 3.94' | w: 100mm / 3.94' | d: 3mm / 0.12' maximum: h: 410mm / 16.14' | w: 360mm / 14.17' | d: 120mm / 4.72'

maximum: 4 kg / 8.8 lbs
