

# XP2800 Entry Terminal

## Value 4 money:

- Ensure a limited time to market
- Optimize the Return on Investment
- Minimize the cost of ownership
- Support the system with additional managed services.

The **XP2800 Entry Terminal** has a revolutionary look that allows for an ergonomic integration in any site.

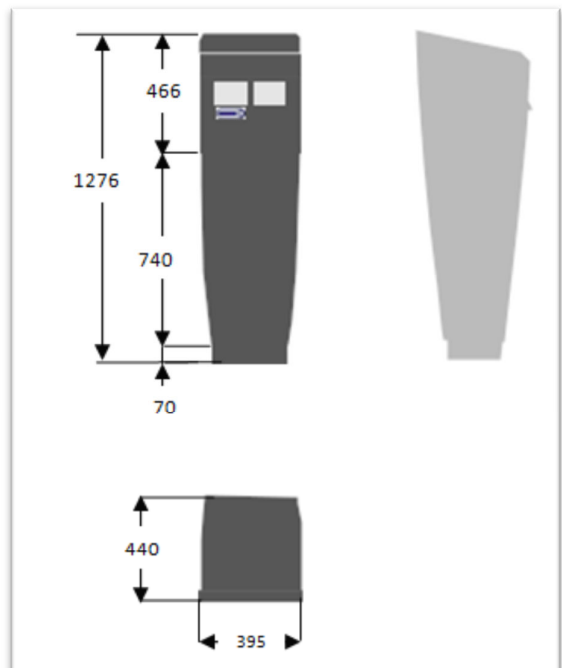

*The attractive look and feel is combined with the latest technology. The device is connected to the central Xparc server with a standard IP connection. This valid for both data and Voice. A variety of options will ensure that any customer requirement can be fulfilled.*

*For the **XP2800 Entry Terminal** the Xparc system concept “**Value 4 Money**” is reflected by an affordable machine with a focus on low maintenance, and a design concept that allows for tailor made solutions within a short development time .*

## Specifications:

Computer :	Industrial PC (1.6GHz Pentium Processor)
Display:	5.7" Full VGA TFT (resolution 640x480, 500cd/m <sup>2</sup> ) – LVDS interface
Ticket Reader :	Linear Barcode scanner
Ticket Printer :	Thermal printer. Supports paper tickets (54 x 85mm, 170g/m <sup>2</sup> max) Capacity: 4000 Tickets
Intercom:	VoIP based module with speaker and microphone (Optional)
Memory:	1GB IDE Flash Module
Network:	Standard TCP/IP
Season Cards:	Mifare (ISO14443A) card reader. Optional: Multifformat Reader.
Case :	Aluminum, powder coating RAL9005/9006 & safety glass
Main Power:	100/120, 220/240 VAC ± 10%, 50/60 Hz with grounding
Consumption:	150W (250W with optional heater)
Ambient :	-10°C ~ +40°C (-25°C ~ +40°C with heater)  10~90% RH (non-condensing)
Net Weight:	50 kg
Dimensions:	1276 (H) x 395 (W) x 440 (D) mm
Approvals :	CE, RoHS, WEEE

Additional Options :	License Plate Recognition Mid Range UHF Reading (Passive Cards or tags) Long Range UHF Reading (Active Cards)
----------------------	---

3<sup>rd</sup> Party Integration: On Request
