Electronic Locks

LA GARD Basic Series at a Glance

The LA GARD Basic Series electronic combination locks are the industry standard for security and reliability, at an economical price. The Basic offers users a simple, secure solution for access control and can be used on home safes, gun safes or any safe requiring the security of an electronic lock. Whether residential or retail the Basic is the perfect upgrade or replacement for the traditional mechanical lock.

The Basic is a flexible entry lock, with interchangeable locks and keypads offering a multitude of choices. Swingbolt and deadbolt lock designs are available with this series. The Basic provides both affordability and dependability second to none.

- Gun Safes
- Residential
- Retail Safes
- Light Commercial

Gun Safes

«The Basic provides peace of mind by restricting access to firearms to protect family members. At the same time, quick and dependable access is guaranteed should you need to defend your home or family.»

Secure and reliable

Residential

«Multiple input units are available for use with the Basic lock. With so many input styles and finishes available the Basic can provide both security and beauty. Whether your home is traditional, modern or anything in between, the Basic will make the perfect accessory.»

Discreet and elegant

Retail/Light Commercial

«As a replacement for mechanical locks, reliability and simplicity are the Basic's best features. No need to worry that too many know a safe's combination; with the Basic, changing the combination is quick and easy. An additional level of access control is provided by the Manager Mode's capability to add or delete a user at any time.»

Quick and customer friendly

The Basic Plus Safe Lock

The LA GARD Basic Plus is an economically priced, dual user electronic combination safe lock designed for a wide range of commercial safe applications. The Basic Plus offers users a simple, secure solution for auditable access control and is the perfect upgrade or replacement for the traditional mechanical lock.

The La Gard Basic Plus has the following features and benefits:

SUPER MASTER RESET (SMR)

When programmed, an emergency code that will return the lock back to default mode.

- Manager - performs administrative functions, can open the lock
- One or two access users - lock will accept either one or two combinations
- Dual control mode - two valid combinations are required to open the lock

SILENT/DURESS ALARM (Alarm box 2789 or 4002 required)

Duress signal is sent if the last number of the combination is entered using either one number higher or lower. Lock will open without indication that a duress signal has been sent.

AUDIT TRAIL

The last 63 sequential events.

(Use of Audit Cable 43097, Audit Software and 3750-K entry unit is required.)

WRONG TRY PENALTY

Four consecutive invalid codes initiate a five minute delay period.

LOW BATTERY INDICATOR

Audio and visual signals.

POWER SOURCE

Single 9v alkaline battery located in the entry unit or optional battery box.
